Daniels Planting Guide

— 1951 —

*A Guide To The
Best Hardy Plants
For The Upper Midwest*

Compliments of
The Daniels Nursery
FRANC P. DANIELS, Prop.
Hennepin County's Largest Nursery
Long Lake, Minnesota

Our 38th Year at Long Lake

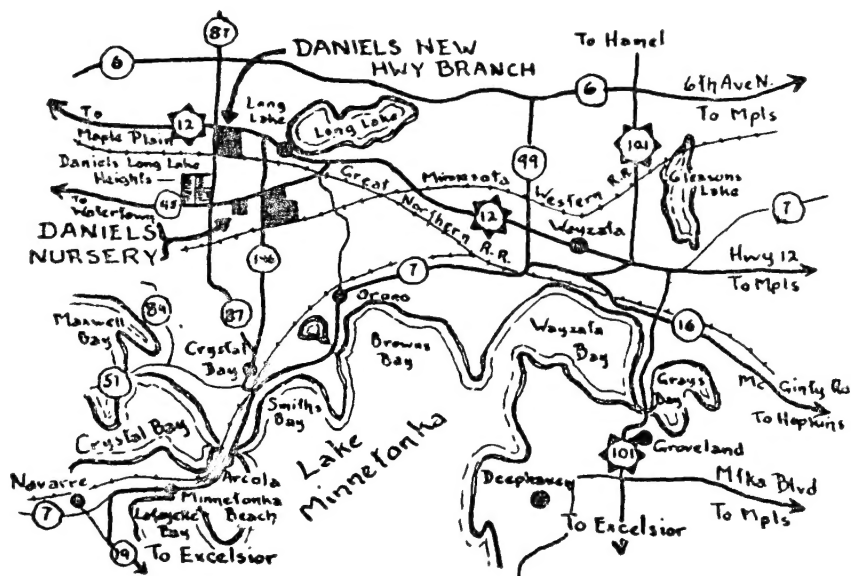

Thirty-eight years is a long time in anybody's life, and an even longer time in a business life.

We could tell you much about our extensive acreages, our skilled plantsmen and landscape experts, and our unexcelled facilities for producing and handling top quality nursery stock.

But more convincing yet, is the fact that during the many years we have been here at Long Lake, our business volume and our customer confidence have continually grown until now we enjoy the distinction of being Hennepin County's largest nursery and an outstanding leader in the field of nursery and landscape work and service.

You can buy from Daniels with complete confidence that you will get nothing but the best in materials and service.

You're Always Welcome at Daniels

WE'RE AT LONG LAKE

on State Highway No. 12

For your
every nursery and
landscape need

"COME SEE US!"

Why Go To Daniels?

● For 38 years we've furnished planters of the Northwest with reliable, hardy, acclimated plants of the best varieties for our exacting climatic conditions.

● Integrity and customer consciousness for that long period have developed a "customer confidence" that is in large measure responsible for our large volume of business.

● Our variety selection is the "cream of the crop." Our recommendation for a variety means that it has passed the test of time and is of proven merit.

● Our rich, deep, Minnetonka soils and ample rainfall assure the best possible plant development. Our stock is specimen material—fine strong roots and well developed, sturdy tops.

● The latest scientific and technical advances are taken advantage of by our skilled plantsmen in reaching the degree of perfection our stock attains.

● The most exacting care is used in digging, handling, grading and storing our plants. Our new, modern, refrigerated storage cellars insure delivery of plants in the "pink of condition." Our mechanical refrigeration system is one of the few used for nursery cellars in the Northwest.

● While large, we are not so large but that Mr. Daniels can, and does, give his personal attention to every step in the production of our super quality nursery stock.

● 90% of our business is done on a "person to person" basis—we go see you or you come see us. 90% of our customers live within easy driving distance, "shot-gun range," so to speak. **SO**, our stock has to be good!

Buy The Best!
Buy Daniels!

DANNY SAYS:

Why not crank up the "ol' bus" and drive over to see us? It's not so far . . . and you'll enjoy both the ride and the visit.

WE THINK WE'RE DIFFERENT!

We like to feel that we are "different"—at least we've tried to be. We grow only those varieties of plants which we feel will give a full measure of satisfaction to our customers. We endeavor to grow, in so far as we can, all of the nursery stock that we sell. We pride ourselves on the fine stock we produce and are pleased and proud to show it to our customers.

In the field of landscape planting and services we have at all times maintained a high standard of professional work—resulting in developments that have given lasting satisfaction to our clients.

It is our endeavor to have our sales effort just the kind we'd like to have directed towards ourselves—a helpful and accurate presentation of facts and advantages entirely free from "high-pressure"—misrepresentation or other unpleasant or unethical approach. You will like to do business with us and you will want to "come again."

So we think we're different! If you've had experience with certain other nurseries, or "so-called" nurseries, and some of the "foot in the door type" of nursery stock salesmen, you'll really enjoy getting acquainted with us. We've spent many, many years developing our present high standing in the business.

We can be truly helpful to you!

Meet The "Family"

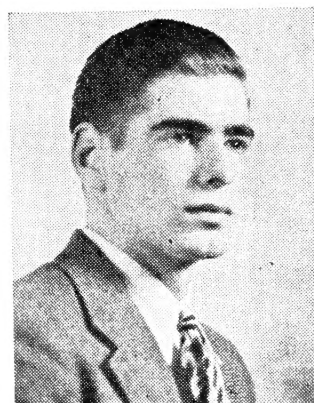

FRANC P. DANIELS, Sr., B.S.A.
Proprietor

Most folks like to know what the people they do business with are like and look like.

So . . . here's the Daniels "Top-Brass" . . . the bunch of Horticultural enthusiasts that make us "tick."

We will all be glad to meet you any time when you drive out to the Nursery, and to give you all the helpful service that we can here or at your home.

The Daniels Nursery is owned and operated by Franc P. Daniels. These facts about him will explain in part the widespread customer confidence in our nur-

DANIELS COMPLETE LANDSCAPE SERVICE

No job too large

No job too small

Consult Daniels . . .

●**FOR DISTINCTION**—Superior design and judicious foresight in the use of materials that will bring just the right “touch” to your plantings.

●**FOR QUALITY**—In plants and in workmanship. No better plants are grown anywhere. Skilled plantmen handle all of our stock and no pains are spared to turn out uniformly good specimens.

●**FOR DEPENDABILITY**—The result of many factors, **DEPENDABILITY** is of the utmost importance to be buyer of nursery stock. To be truly dependable, stock must be true to name, well grown with good roots and tops, and so dug, handled, stored and packed that it reaches the planter in perfect growing condition. **DANIELS STOCK IS DEPENDABLE.**

OUR LANDSCAPE SERVICES FOR 1951

Through careful, conscientious, economical performance we have long enjoyed an enviable reputation for the furnishing of the following landscape services and materials:

Planting of Nursery Stock
Shrub Trimming
Tree Trimming and Care

Tree Removal
Tree Feeding and Spraying
Grading and Sodding

Lawn Building and Renovation
Stone Walls and Walks
Soil, Peat and Fertilizers

It will be a pleasure to have one of our landscape experts consult with you, without charge, regarding your planting or other landscape problems. You will find their advice sound and truly helpful. We are here to serve you conscientiously and without high pressure sales effort. May we help you?

Daniels Hardy Ornamental Shrubs

Shrubbery is an invaluable asset to the beauty of the home grounds. Use it as a "paint brush" to obtain the quick and charming effect in the outdoor living room, foundation planting or shrub border. You will find a great variety of shrubs here, each with its special merits, whether it be beauty of flowers, foliage, fruit, bark colorings or a combination of all. Drive out and see for yourself that our shrubs are heavy stock and not to be thought of in the same terms as the ordinary mail-order plant. We have taken care to list only those suited to our climate here in the Northwest.

DANIELS ORNAMENTAL SHRUB PRICES

Add 10% if shrubs are to go by mail. Only the 3 smallest sizes mailable.

SOUV DE LOUIS BIGOT—(9.1) Vivid pink
SOLANGE—(9.7) Creamy white

Daniels Hedging Shrubs

Living, Lasting Fences!

The proper use of hedges adds immeasurably to the attractiveness of one's home grounds. They will effectively mark a boundary line, serve as a screen, or furnish a pleasing background for an informal planting.

In this group we offer fine, strong plants, suitable for starting live fences. These are well grown, strong rooted hedging size specimens which will give quick results.

Daniels HARDY PERENNIALS

We have long prided ourselves on both our excellent assortment of perennials and the fine quality of our plants. Our specially prepared soils, rich in humus and plant food, produce top quality in field grown clumps. When called for here at the nursery they are dug with a large ball of soil.

It is impossible to list here all of the more than 100 fine varieties we are growing, but we do have a special list showing heights, color and season of bloom which will be mailed free upon request. Perennial enthusiasts will find this list most useful and helpful in planning a garden. Most of our field grown perennials are priced at only 50c each, with a few at slightly higher prices. Fine, strong, potted perennials mostly at only 35c each.

DANIELS HARDY PHLOX

DANIELS BEAUTIFUL ROSES

The Queen of All Flowers

The rose is unquestionably the most popular of all flowering plants. Its fragrant blooms with varying form and color are unsurpassed by other plants.

Our roses are grown especially to meet the rugged climatic conditions of the Northwest. They are hardy, field grown, of the largest two-year-old grade, full of vigor and life, ready to bloom for you just a few weeks after planting. Add 10% if to go by mail.

WANT TO LIVE IN THE COUNTRY?

(But just a few minutes from the city)
Because of changing conditions, largely labor supply, we are discontinuing some of our fruit growing activities and offering part of our most desirable land for residential purposes.

FOR A SMALL PLACE WE OFFER

Our new subdivision of choice half acre home sites, just west of Long Lake, on County Highways No. 45 and No. 87.

Rich soil—Daniels best.
Beautiful building sites, and rural views.
Good schools.
School bus at property.
Good roads.
50-ft. subdivision streets, safe and quiet.
1½ acre playground.
Nursery trees on many lots.
Fields of fruiting currants and raspberries on some lots.
Attractively priced for Mr. Average Man.

FOR A "COUNTRY ESTATE" WE OFFER

3 to 35 acre tracts, ¼ mile
south of Long Lake
on County Highway No. 146

Slightly knolls separated by modest vales.
Open meadows.
Winding stream.
Hidden, wooded valley.
Beautiful, countryside views.
Bearing orchards on some lots.
Good roads and bus transportation.
School bus at property.
Priced modestly for better homes.

AT LONG LAKE

12 miles west of Minneapolis via the new Super Highway No. 12 where the advantages of suburban living and urban proximity blend to create . . .

THE IDEAL HOME for

Residences Education
Recreation Accessibility

We invite you to send for brochures on these two offerings.

COME TO DANIELS' NEW GARDEN SHOP FOR

ONE STOP SERVICE FOR THE GARDENER

At last all "under one roof," so to speak, you can not only fill your every need for top quality nursery stock, but at the same time provide for all your various gardening needs. In our new "GARDEN SHOP" you will find a wide assortment of just the best (Daniels Tested) tools, supplies, materials, etc., that every Horticulturist needs.

Potted
Plants

Pruning
Tools

Sprayers
and Supplies

Bees and
Bee Supplies

POTTED PLANTS: We have the popular annuals, perennials, small evergreens, shrubs, roses and vegetable plants in pots. No fuss and no waiting. All of these, plus our regular field-grown plants.

SEEDS: Vegetable, Flower and Lawn Seeds. Those we consider the best for our territory. Utilize our experience in making your selection.

GARDEN TOOLS: We have an assortment of those tools used by the "Back-yard Farmer." We handle only those that our wide experience has shown to be practical.

PEST CONTROL MATERIALS: A stock of materials for protection of your plants. Again you can utilize our experience in selecting your insecticides, fungicides and herbicides.

BEES AND THEIR NEEDS: Apiarists, make us your headquarters. Beginners, make use of our experience. Packaged Bees on order. A complete line of supplies. Send for free circular NOW.

MISCELLANEOUS: Rodent Traps, Stakes, Labels, Rain-gages, and many other "Needs and Gadgets."

FERTILIZERS: The right kind for every need. Milorganite, Vigoro, Bone Meal, and other commonly needed mixtures. We can serve your tonnage needs for farm fertilizers.

BOOKS: A small stock of gardening books. Small because we think they are the most practical for the "one book" gardener.

FENCES: The famous Concord two and three rail "Estate" Fence and Picket Fences. Sectional, easily erected. Send for Fence Circulars.

the famous *Scotts* lawn beauty treatment

First a meal of TURF BUILDER to bring out bright color and health. Next sow *Scotts* SEED to cover bare spots with luxuriant grass. Do it yourself in a few minutes with *Scotts* SPREADER; relax and enjoy a nice lawn this year.

ANNOUNCING

A NEW, PRACTICAL, HELPFUL BOOK
FOR THE HOME GARDENER

HORSE-SENSE HORTICULTURE

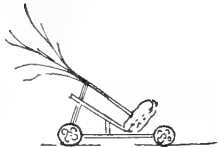

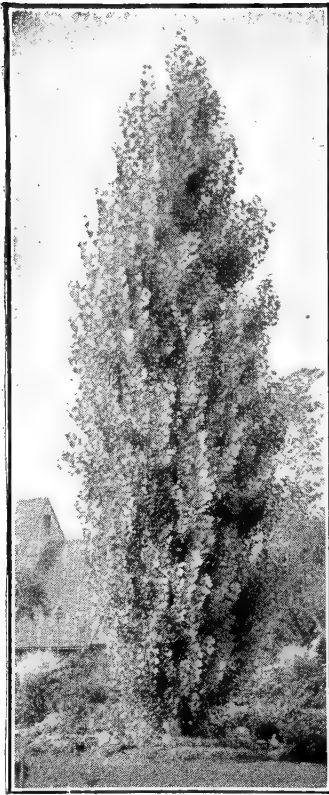

By Franc P. Daniels

- Tells "What makes the wheels go round" horticulturally and how to keep them "greased."
- Its pages are "cram-packed" full of the answers to the questions every Home Gardener asks himself 100 times a month. Profusely illustrated.
- Just the book Mr. Average Homeowner has longed for. In simple, understandable, layman's language it tells the "When, Why and How" of practical gardening. Up to date information on the new leading insecticides, fungicides and herbicides.
- It is of equal value to the small home dweller, the owner of an estate and the commercial grower.
- Written by a man who has spent 42 years in practical horticultural work—teaching, preaching, but most important, practicing everything he has written.
- Written for the Northwest and our exacting conditions, which can be said of no other book that contains all this material. Most books, and most magazines are written for the entire United States of America and of necessity contain much material that is irrelevant and confusing for us here in the Northwest.
- What would you give for the privilege of sitting down with a real gardening expert—one who knows not only the technical angles but who has had a lifetime of practical experience in fruit, vegetable and landscape work—and asking him the answers to your many perplexing garden problems? "HORSE-SENSE HORTICULTURE" offers you this opportunity.
- Truly a real "Short Course in Horticulture" with enough botany, plant physiology, pathology and other "ologys" and their horticultural applications to make one's garden operations seem reasonable and logical.

A REAL MUST FOR EVERY GARDENER

DANNY SAYS:

Why wait? Our big trees can save you years and years . . . and yes, more years!

Daniels Shade Trees

Shade trees are a long-time investment, so select with the utmost care. While hard wood types grow more slowly and have greater permanency, the faster growing soft woods have a very definite and important place in your outdoor living room. Select yours from our large stands of Northern Grown trees. Another reason for driving out to see us.

Only 3-4, 4-5 and 5-6 foot sizes are available. Add 10% for postage.

Large Trees For Immediate Effect

Up to a generation of growing time may be saved by planting **large** trees. We have splendid facilities for furnishing big trees, both evergreens and deciduous. May we have an appointment to discuss your "large tree" requirements with you?

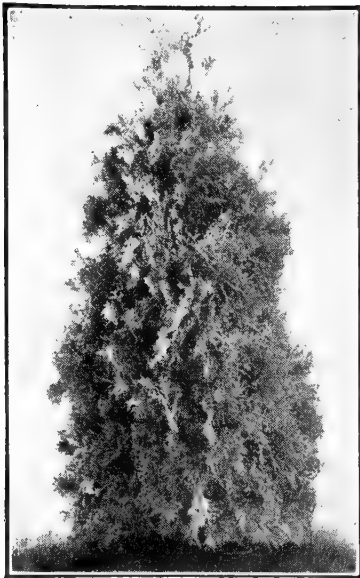

Our new tree moving equipment enables us to install large trees at minimum cost.

DANIELS BEAUTIFUL EVERGREENS

No planting is truly complete without some evergreens.

During the winter they form a most attractive part of one's planting, and during the summer their splendid colors and varying forms add a note of interest to even the most elaborate landscape effect.

We take the greatest pains in growing our evergreens so that they will give you 100 per cent satisfaction. The trees offered below have been transplanted several times, depending on the size, and the roots pruned in such a manner that a heavy growth of fibrous roots has been developed. When these trees are dug for you, you will get plenty of roots. The prices of the trees given below include the cost of ball and burlap (B. & B.).

Evergreens are not shipable. Should be picked up or delivered.

SECONDS . . . THAT SHOULD COME FIRST IN YOUR CONSIDERATION:

We have over 25,000 fine evergreens in our nursery. Every year we find that a certain small number of these evergreens do not measure up to the high standards of our number one trees.

These we call "Seconds" because for some reason they did not develop as perfectly as most of the block. This may have been caused by crowding or by mechanical injury (as from a cultivator), or from any of a number of other causes. There is nothing inherently wrong with them and they usually grow into perfect trees after one season of corrective care. You'll be delighted with them, and what their price tag says.

We have tagged several hundred of these seconds in the field with variety name, regular price and sale price. You are invited to make your own selections.

DANIELS HARDY APPLES

Having been extensive orchardists as well as nurserymen for well over thirty years, we feel that we know apple values pretty well—both from a home and a commercial orchardist's point of view. There are probably several hundred different kinds of apples being grown in Minnesota and adjacent territory—but only a few of them are really worth while.

The varieties listed on these three pages comprise what we consider to be the very best of them all. Each has its especial merit and value. Our descriptions point these out, so that even the novice can make a wise selection. However, we will be happy to aid anyone in choosing a list for any particular location or purpose.

Now—right in our own yards and home and commercial orchards—we can grow as fine apples as are produced anywhere in the world.

Plant—and plant now—the marvelous new sorts . . . and remember, too, that the older Duchess, McIntosh, Wealthy, and others listed here are just as good as ever . . . and each has its important place.

Only the smallest sizes are available. Please add 10% if to go by mail.

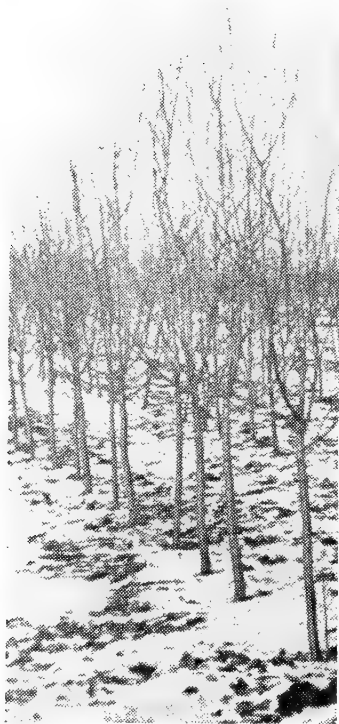

DANIELS APPLE PRICES

	Each 1-4	Each 5-9	Each 10-up

DANIELS "CAN'T WAITERS"

FRUITS FOR THE MAN WHO CAN'T WAIT!

So, so often people ask us for trees that will bear right away. "I must have something that will fruit right away—I'm getting old and can't wait forever," is what they say. SO, we're growing for the "can't waiter" an extra large, fine transplanted tree all ready to go to work for you—and for a lack of a more "pat" title we call them our "CAN'T WAITERS."

This year, for the first time, we have at last caught up in our production of these "CAN'T WAITERS" and offer over 2000 of these this spring. These have been grown by transplanting the regular planting size into a new field and then growing them on for two, three or four years more.

During this time they have gained greatly in maturity—in caliper, in height, in branching and in root development. Many of them have already borne some fruit right in the nursery row. But, because of the extra transplanting and care we have given them, they move as successfully and as safely as a younger tree.

We have them in \$3.00, \$4.00 and \$5.00 sizes—and a few in larger sizes. The \$4.00 size comprises our largest assortment. As fast as we receive your order we go out and actually tag, with your name, the best trees of the size and kind ordered. They are then dug for you as soon as digging starts.

Daniels "Vest Pocket Orchard" Apple Trees

SUPER HARDY—NORTHERN GROWN—EARLY BEARING

Four to Nine Varieties on One Tree

How often has the city home owner sighed for three or more varieties of apples when there was room for only one tree in his yard! To meet their needs we have developed Daniels Vest Pocket Orchard apple trees. By means of a painstaking process of grafting, we have developed trees which will bear 4, 5 and even up to nine different varieties on the one tree. Each variety is as perfect as if it had grown on a normal tree. We have used only the best varieties as Fireside, Minjon, Wealthy, Haralson, Dolgo, Daniels Red Duchess, McIntosh and Erickson. Aside from its utilitarian value, you will get more "bang" out of one of these trees, bearing several varieties of fruit at once, than out of any other plant on your grounds. **Order Early! 4 varieties \$4.00; 5 varieties \$5.00; 6 varieties \$6.00; 7 varieties \$7.00; 8 varieties or more \$7.50. Not mailable.**

DANIELS QUALITY PLUMS

The new Minnesota plums are conceded to be the finest race of plums ever developed for the Northwest. They are large, high quality and unexcelled for home use or for market.

Through the use of a proper assortment of varieties, such as we list, it is possible to have six, seven, yes even eight weeks of fresh plums from your own orchard—plums of such large size and tantalizing quality that no one can afford not to have them in their own orchards.

DANIELS PLUM PRICES

Ember	Superior	Toka
Monitor	Underwood	

Big as Hen's Eggs. Tree ripened quality right in your own yard!

DANIELS HARDY PEARS

HOME GROWN—TREE RIPENED PEARS

(In your own yard)

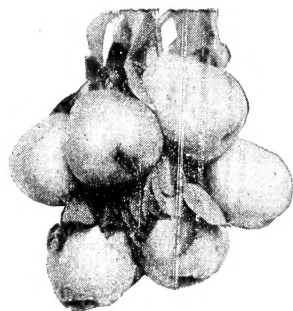

Pears are no longer an experiment in Minnesota and adjacent territory. The varieties we list have proven their suitability to this climate with many years of successful production. The new Bantam (Minn. No. 3) is the finest small pear yet developed for the North. You can now grow in your own home orchard good quality pears in sufficient quantities for any family's eating and canning needs. If you are not growing them you are missing something worth while! They are as easy to grow as apples—just as safe in adapted sections, and just as sure croppers.

DANIELS PEAR PRICES

DANIELS HARDY CHERRIES

The splendid cherries we list on this page have adequately proven their desirability both from the home garden or market point of view. With an assortment of these one can have the finest of cherries for eating and for canning.

Daniels Cherry Trees—propagated by the methods we use—have proven hardy throughout the Northwest and well up into Canada.

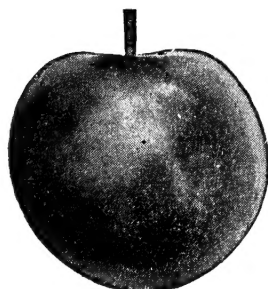

Bearing age trees generally blossom the year planted and should fruit the year following without fail.

DANIELS SMALL FRUITS AND GRAPES

For thirty-seven years we have ourselves been fruit growers—with from 20 to 50 acres in fruit crops. With this first hand understanding of the fruit growers needs and problems it is only natural that we have long enjoyed a reputation for furnishing "truly better" fruit plants.

For foundation stock that will build a dividend paying fruit planting, plant Daniels Fruit Plants.

FOR THE TINY SPOT

How'd you like a real strawberry garden in a 6-ft. space? Our new "**STRAWBERRY PYRAMIDS**" accommodate 50 to 75 plants . . . and do they produce!

NOW YOU CAN HAVE "Horse-Sense Horticulture"

FREE

In 1943, Mr. Daniels published the popular 120-page horticultural book "Live At Home And Like It." It was generally accepted as one of the most popular and practical general horticultural hand-books ever written for the upper midwest. It has been out of print for several years, but this year Mr. Daniels re-wrote, revised and enlarged it, bringing it completely up to date and gave it the new name . . .

"HORSE-SENSE HORTICULTURE"

To the novice it brings a complete education in the basic facts and practices of Horticulture and for the expert it provides an excellent "refresher" course as well as a dependable reference book.

YOU CAN'T AFFORD NOT TO HAVE IT!

The price of the book is only \$1.00 postpaid. BUT, if you act promptly you can have a copy FREE.

FREE BOOK OFFER

(EXPIRES APRIL 1, 1951)

We want you to have one of these books, "Horse-Sense Horticulture," FREE! Here's how:

1. Send in an order for \$10.00 or more for nursery stock (accompanied by payment in full) to reach us before April 1, 1951 and one of the books will be sent to you FREE by return mail.

2. Send in \$1.00 for the book, and with the book we will mail you a "credit memorandum" good for \$1.00 to be applied on any order for nursery stock for \$10.00 or more (accompanied by payment in full) which reaches us before April 1, 1951.

DON'T MISS THIS OPPORTUNITY

(Remember this offer expires April 1, 1951)

HOW TO ORDER FROM DANIELS

(—and that's the best way to get the best Nursery Stock)

WHEN TO ORDER—As early as possible. "First come, first served," is the rule. Early ordering is a big help to us, and frequently late orders cannot be filled in full. Why not send your order in now? It will be carefully booked and shipped to you at the time you want it.

PRICES—Prices in this catalog are guaranteed only for orders in the spring of 1951 and annul and supercede all prices quoted previously. All prices are F.O.B. Long Lake, Minnesota, unless otherwise specified. (See "Method of Shipping.")

TERMS—Our business and moderate price schedule have been built on a cash with order policy, and we prefer to have your orders accompanied by cash in full. This plan enables us to keep down costs and to maintain low prices. If C.O.D. shipments are preferred, 25 percent must accompany the order, balance C.O.D. On out of town checks please add 5c for bank "float" charge.

IN LANDSCAPE PLANTINGS payment is expected immediately upon completion of the work. However, if desired, we are always glad to establish book accounts for clients of established credit. All accounts are due not later than the 10th of the month following date of purchase.

METHOD OF SHIPPING—Express is safest and generally the best way to ship plants. Many small orders may be shipped satisfactorily by parcel post. We send postal charges C.O.D. unless proper amount is added to your remittance. Delivery facilities are available in the Twin Cities, their suburbs, and the Minnetonka area. In our landscape plantings, stock is delivered at the time we do the planting.

PLANTING SERVICE

We invite those who wish to have their stock planted to avail themselves of the services of our skilled horticulturists. We can furnish these expert workmen in the Twin City area at the following rates: Evergreens at 40 percent of the cost of the stock, and other stock at 60 percent of the cost of the stock, except hedges which will be planted at 35 cents per foot. For the clients' protection our workmen are fully covered by Workmen's Compensation Insurance.

Daniels Liberal Guarantee and Sales Conditions

We are careful to keep our varieties true to name and will replace any items of stock that may prove otherwise or refund the price paid for such portions. It is agreed that the original price shall be the maximum damages the purchaser is entitled to. Plants (except strawberries or specially priced items) failing to grow the first season after planting will be resupplied once at one-half the original cost of the stock provided that such failure to grow is not due to neglect or improper handling on the part of the purchaser and provided that replacement claim reaches us prior to October 1st of the fall following planting. This order is subject to the condition that The Daniels Nursery shall not be liable for any delay or non-performance due to strikes, fires, acts of nature, government regulations or limitations or any other cause beyond our control.

DANNY SAYS:
